

## ATC Brasher Warnings and Following Instructions

There has been an uptick in General Aviation Pilot deviations and Brasher Warnings by ATC. Join the FAAST team to discuss pilot deviations, what a Brasher warning constitutes, how to address issues when ATC instruction causes a safety or operational concern to you as pilot(s) regarding your or another aircraft's safety in the air or on the ground.

**Directions:** Please check Google Maps or Map Quest.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.

### Event Details

**Sat, May 20, 2017 - 13:00 EST**
